Mission: The Da Vinci Discovery Center of Science and Technology, Inc. (Da Vinci Science Center or Center) is a Pennsylvania nonprofit corporation whose mission is to bring science to life and lives to science.

Service Area: The Center is located in Pennsylvania's Lehigh Valley, approximately 65 miles north of Philadelphia, Pa., and 90 miles west of New York, N.Y. Its primary service area is eastern Pennsylvania and western New Jersey—home to 3.8 million people.

Need: According to the 2011 National Assessment of Educational Progress, 28% of 4th graders, 37% of 8th graders, and 40% of high school seniors did not meet the basic standards of science knowledge. Even when matching advanced 8th graders with their international counterparts, U.S. students still only out-ranked Portugal, Greece, Turkey, and Mexico. In parts of the Da Vinci Science Center's service area, less than 35 percent of students are considered proficient in science. The region's powerful and innovative industries – including healthcare, energy, and manufacturing – report that there is a growing demand for workers with a high level of knowledge in science, technology, engineering, and math (STEM). With baby boomers skilled in STEM fields soon to retire, the need will be even greater over the next decade.

Response to Need: The Da Vinci Science Center is dedicated to meeting the demand for a STEM workforce by stimulating interest and appreciation for science and technology in young people and the adults who influence them. The Center provides inquiry-based science learning experiences for individuals of all ages, connects people with the wonders of science in all aspects of their lives, and highlights innovative science and technology careers. The Center also encourages active learning, curiosity, creativity, and imagination – traits inspired by Leonardo da Vinci and the transformative figures that have succeeded him into the 21st century.

Programs & Services: To strengthen interest and achievement in science, the Da Vinci Science Center offers the following:

- a dynamic two-story exhibit floor that facilitates inquiry-based learning through hands-on exhibits and programs;
- inquiry-based science outreach programs delivered in schools and at community sites;
- professional development programs that train teachers in inquiry; and
- regional workforce initiatives that integrate limited-engagement exhibits with programs highlighting employment opportunities.
- An urban mentoring partnership that brings mentorship to girls and low-income youth, the most underrepresented populations in the STEM workforce, and is part

of a national movement to add a million new STEM mentors by 2020.

A wide variety of programs are offered at the Center including school workshops; summer camps; scout badge days and overnights; and lectures, demonstrations, and hands-on activities for the general public. Programs offered in the community range from small-scale after school programs to large-scale programs like the Science Festival of the Lehigh Valley. Professional development programs include the nationally-recognized Math-Science Partnership Program serving the Allentown School District and developed in collaboration with area colleges and universities. Also, through collaboration with community organizations such as the Allentown Library, The Baum School of Art, the Civic Theatre of Allentown, Communities In Schools, and the United Way, the Center is able to offer experiences integrating the sciences with the arts, and to expand the programs available for youth from lower socioeconomic backgrounds where the need is the greatest.

Honors and Awards: The Da Vinci Science Center has achieved national and regional recognition, including the following:

- Recognition of the Center's math science partnership as one of the nation's 20 best professional development programs by the U.S. Department of Education.
- The National Science Teachers Association's (NSTA) national Distinguished Informal Science Educator Award for David Smith, Ph.D., the Center's Senior Director of Science and Strategic Initiatives.
- One of three national grand prizes from the US2020 City Competition for its STEM mentoring coalition, a group of more than 30 companies and organizations founded by the Da Vinci Science Center.
- The United Way of the Lehigh Valley's 2014 Innovator's Award for collaborating with schools in the community to inspire students to explore science, technology, engineering, and mathematics (STEM).

Impact: The Center's impact can be measured by the number of individuals served and the impact of science learning experiences on student learning and career plans. In FY 2015, 128K people participated in Da Vinci Science Center experiences. Over the last three years, regional workforce initiatives developed in partnership with industry leaders have exposed over 350K participants in Center experiences to STEM careers. More important than the numbers served, Center experiences have resulted in substantial and independently measurable increases in student learning and interest in science by students in urban schools.

To help students and the region thrive, students need the opportunity to deeply explore the STEM disciplines. True STEM education transforms the teaching and learning experience, connects learning to relevant regional career opportunities and economic growth clusters, gives students a leg up in college, and—ultimately—builds the next generation of problem solvers, innovators, inventors, collaborators and leaders. Da Vinci Science Center programs are changing the trajectory of students' lives and the development of the region.
