

DA VINCI SCIENCE CENTER

Science Soiree

April 24,
2026

Join us for an unforgettable night at the 2nd Annual Science Soiree and STEAM Awards Celebration to advance our mission of bringing science to life and lives to science!

The theme for the event is: **Night of Many Stars: A Celebration of Exploration, Creativity, and the Limitless Possibility of Curiosity.** This inspirational evening will feature the presentation of our annual student and educator STEAM Awards. In addition, we are honored to present Dr. Sian "Leo" Proctor, an astronaut, geoscientist, artist, poet, and trailblazing space communicator with our **Pioneer in Science and Creativity Award**. Dr. Proctor's visionary work fuses science, creativity and humanity, inspiring future explorers to see themselves as pioneers of possibility.

Dr. Sian "Leo" Proctor
Inspiration4 Astronaut & Afrofuturist

As a tribute to Dr. Proctor, local students will be recognized for submissions as Pioneers in Science and Creativity as well.

Your sponsorship propels our shared vision of advancing science learning forward, enhancing quality of life, and strengthening economic development across the Valley—all while creating a dazzling, memorable night of discovery and celebration.

Your 2026 Science Soiree sponsorship and attendance support...

The Linny Fowler STEAM Scholarship Fund

Your support provides need- and interest-based scholarships to students for Science Center Traveling Science Programs, School's Out Science Camps, and other experiences. These scholarships inspire the workforce of the future by providing opportunities to explore science, technology, engineering, art, and mathematics subjects and careers.

The Annual STEAM Awards

A tradition since 1999, the awards (previously known as the Hall of Fame Awards) recognize students who show a passion for STEAM, and educators who inspire enthusiasm for learning with innovative approaches. Winners have the opportunity to shine under the spotlight and showcase their innovative projects and support a thriving educational ecosystem in the region.

Access for All

This initiative is part of Da Vinci Science Center's commitment to providing access to science education to all, removing barriers to entry including financial barriers, and making sure all feel welcome. The Access for All Discount Admission and Membership program provides significantly reduced pricing for qualified individuals and families, ensuring healthy growth of opportunity and sparking creativity in every corner of our region.
